

CM1202 Developing Quality Software
Self & Peer Review Contribution Form – Spring Semester

Good team work obviously involves each member contributing to the task. This is a pro-forma for you to complete to appraise your peers and yourself with regards to the team work being undertaken in the CM1202 Developing Quality Software module. The form contains three categories. For each of these categories, there is a space for comments where I want you to provide reasons, or explanations that helped inform your ratings.

Rate each member of your team and yourself using the 3 Star scale given. Complete one form for each team member and remember to include a form which reviews you. Please think hard and honestly about each of the categories and how you and each group member performed. Different people will have different strengths and make different but equal contributions. Please rate each category for each team member and yourself.

Please do your evaluations independently –What is required is a rating from each of you, based on your perceptions, experiences and professional judgement. Submit one form for each team member, including yourself, with your Student ID, team number and the assessed person's name on each form.

Remember to keep a copy of these forms as you will be required to include them in the appendix of your the individual reflective report.

Your ID: **1841485**

Team: **TEAM 12**

Assessment of: Marton Zeisler (Myself)

For each category, award yourself and each member of your team a rating using the scale, and your team agreement:

*** (3 Stars) Better than expected

** (2 stars) As expected

* (1 star) Not as good as expected

(no stars) Student has not engagement with the rest of the Team

Category	Comments, Examples, Explanations etc	Rating [*, *, *]
Group Participation and Citizenship <ul style="list-style-type: none">• Attended meetings regularly and on time,• Positive attitude, encouraged and motivated team members,• Engages and provides effective contribution in discussions at meetings or online.• Supported team decisions, helped to reach team consensus, helped resolve conflicts in the team.	I attended every meeting on time and always participated in our discussions. I always tried to engage with everyone and supported others decisions.	***
Time Management and Responsibility <ul style="list-style-type: none">• Accepted fair share of work• Reliably completed work by required time.• Participates in Team Project Management, formally or informally ensuring the work stays on track, with everyone informed of progress.	I accepted a fair share of work and I completed all of it by the required time. I was responsible for putting the final PDF document together and I submitted it on time.	**
Scholarly / Professional <ul style="list-style-type: none">• Displayed or tried to develop a wide range of skills in the service of the project,• Provided technical insights and solutions to problems.• Willing to provide/accepts constructive criticism, willing to adapt / consider other people's perspective	I helped others in my team and I provided technical assistance when we were making the UML diagrams.	***
